

2017 SUMMER CONFERENCE

Integrated Management of the Marine Environment

4 July 2017

Grand Harbour Hotel, Southampton

CALL FOR PAPERS

(Deadline: 21st April 2017)

We are currently seeking proposals for presentations for our Summer Conference on 'Integrated Management of the Marine Environment'. We are interested in topics that look to understand the external impacts on the marine environment and how an integrated management approach can deliver multiple benefits. To explore effective approaches to ecological impact assessment in the Marine environment and to discuss the required elements of a post-Brexit integrated marine management policy and legislative landscape.

Presentations will be 20 minutes in duration and will be followed by time for questions from the delegates. Presenters will have a free delegate place at the conference and their travel costs reimbursed.
